

# SOLIDARITY TO

THE STRIKING MONTGOMERY WARD WORKERS. FOR REAL VICTORY!

The Revolutionary Workers League salutes your heroic fight against Avery and Montgomery Wards. We have been with you all the way, during your organization campaign, on the picket line and in other Unions here and all over the country, spreading your message and arguing your case. We will stick with you until this fight is won and in your future struggles for more gains.

KEEP UP THE GOOD WORK

Remember that this fight is not only your fight. It is the fight of the workers against their bosses everywhere. **YOU MUST WIN YOUR STRIKE!** If YOU lose then the bosses all over the country will let loose a war against the workers and reduce them to literal slavery. If YOU win then the employers (who are united from coast to coast) will know that organized labor means business. The workers who aid you today will be strengthened in their struggles tomorrow against their bosses. **KEEP STRIKING UNTIL VICTORY!**

Remember that your strike is **NOT ONLY TO FORCE SLAVERY AVERY AND WARDS TO RECOGNIZE THE AUTHORITY OF THE WLB OR PRESIDENTIAL DIRECTIVES.** Your struggle is to win better pay, equal pay for equal work, no discrimination, job security, proper seniority, Union recognition and a good Union contract. You can win these things now - while you are on the picket line, while the whole workingclass is backing you up. Just forcing the company to obey the WLB will not get these demands. Remember that the WLB has never shown itself to be a friend to labor. It uses all kinds of red tape to stall negotiations, to prevent workers from taking strike action to gain their demands; it hurls the "Little Steal Formula" in the face of workers who cannot live with the present high prices and war taxation-~~meanwhile~~ the bosses and management do grab all the profits it can get.

Only your own strength on the picket line, today and tomorrow will really win your demands. The WLB is carrying out the Presidents orders and he has always backed them up. Forcing Avery to recognize the WLB is no real victory for you. It will be to your disadvantage to let any labor-faker talk you into quitting before your **REAL DEMANDS ARE WON.** Maintain and strengthen your picket lines, defeat the injunction, completely close the Company, with your mass picket lines, spread the strike.

Build a progressive group in your Union and a strong educational committee. Join with other progressive forces to prepare today for tomorrows inevitable fights to hold on to labor's gains and to win new needed victories.
